

July 28, 2000 Policy Committee Meeting Consent Calendar

**ATTACHMENT 3
(Contracts for Approval)**

CRPAQS:

1. **Technical & Business Systems – Amendment 4 to Contract 99-3PM (\$30,000):** Provide additional funding for support of database management activities. This will include development of computer codes to assist contractors with data submittal, processing of air quality and meteorological data from supplemental sources, and development of quality assurance/quality control computer processing routines.
2. **U.C. Davis – Amendment 1 to Contract 2000-05PM (\$100,000):** Provide funding contributed by the Gas Research Institute to support additional air quality monitoring for model performance evaluation. The number of detailed size and chemical speciation sites will increase to five and additional speciation measurements will be conducted at several sites.
3. **NOAA – Amendment 2 to Contract 99-4PM (\$346,600):** Provide funding for the operation of three radar profiler/RASS sites, eight sodar sites, and three surface meteorological sites during the winter intensive monitoring program. The sites will operate from October 1, 2000 through January 31, 2001.

CCOS:

1. **Desert Research Institute – Contract 00-11CCOS (-\$20,000):** Reduce the contingency fund from \$160,000 to \$140,000.
2. **Technical & Business Systems – Contract 00-12CCOS (\$20,000):** Provide a contingency fund for \$20,000. Funding for this contract will be reallocated from the contingency fund with Desert Research Institute.
